## University of Cambridge Free Courses

Cambridge is a top university in the world. I am interested in exploring some courses there in person one day. But until then, some remote courses—FREE—are here.

### TABLE OF CONTENTS

1. Foundations of Finance
2. Digital Platforms in Performance
3. Communicating for Influence and Impact
4. The Neuropsychology of Decision Making
5. The Psychology of Emotions: An Introduction to Embodied Cognition

AI REVIEW PASSED.

The screenshot shows the EdX course page for 'University of Cambridge: Foundations of Finance'. At the top, there is a search bar and a navigation menu. The course title is prominently displayed, along with a 4.5-star rating and a brief description: 'This course provides a rigorous, but straightforward, introduction to the key concepts of financial understanding. Using real-world case studies and practitioner interviews, as well as timely knowledge checks, you will integrate your new knowledge and problem solving skills with practical application.' Below the description, it states 'No prior knowledge is required or assumed.' The course details include a duration of 5 weeks (3-5 hours per week), a self-paced format, and a free price with an optional upgrade available. Two enrollment options are shown: 'Starts Jun 7' (ends Jul 15) and 'Starts Jul 22'. A navigation bar at the bottom includes links for 'About', 'What you'll learn', 'Syllabus', 'Instructors', and 'Ways to enroll'. The 'About this course' section is partially visible at the bottom of the screenshot.

## Foundations of Finance

This course provides a rigorous but straightforward introduction to the key concepts of financial understanding. Using real-world case studies, practitioner interviews, and timely knowledge checks, you will integrate your new knowledge and problem-solving skills with practical application.

**No prior knowledge is required or assumed.**

The screenshot shows the course page for 'University of Cambridge: Digital Platforms in Performance' on the edX platform. The page includes a search bar at the top, a promotional banner for AI and tech skills, and a main heading for the course. The course description states: 'Advance your digital story-telling prowess and learn how to create interactive gameplay scripts for video games, radio drama scripts for radio and/or podcasting, as well as content for your YouTube channel. Learn to transfer your skill as a dramatist into these innovative mediums.' It also mentions that the course will broaden understanding of starting a career as a digital storyteller. Key details include a duration of 4 weeks (8-10 hours per week), self-paced progress, and a free cost with an optional upgrade. A single session is available, starting on June 10 and ending on September 14, with 9,306 already enrolled. An 'Enroll' button is visible. A navigation menu at the bottom includes 'About', 'What you'll learn', 'Instructors', 'FAQs', and 'Ways to enroll'. The 'About this course' section notes it is part of the University of Cambridge's MicroMaster's program in Writing for Performance and Entertainment Industries.

## Digital Platforms in Performance

Advance your digital story-telling prowess and learn how to create interactive gameplay scripts for video games, radio drama scripts for radio and/or podcasting, as well as content for your YouTube channel. Learn to transfer your skill as a dramatist into these innovative mediums.

This course will broaden your understanding of how to start a career successfully as a digital storyteller, as well as offer you insights in how to maximise and enjoy the processes of your personal creativity.

The screenshot shows the edX website interface. At the top, there is a navigation bar with the edX logo, a search bar, and links for 'edX For business', 'Sign in', and 'Register for free'. Below the navigation bar, a promotional banner reads 'Develop AI, data, and tech skills. Get up to 20% off select programs until June 18. Use code EDX3TEM24. Learn more.' The main content area features the course title 'CISL: Communicating for Influence and Impact' and a description: 'Develop your leadership abilities with communication skills that foster collaboration and influence positive change in any context.' A video player with a 'Play video' button is visible. Below the video, there are three key details: '8 weeks' (8-10 hours per week), 'Starts Jul 10, 2024' (Enroll by Jul 16, 2024), and 'Instructor-paced' (Instructor-led on a course schedule). A 'Request more info' button is also present. At the bottom, there is a navigation menu with links for 'About', 'Curriculum', 'Certificate', 'Facts', 'Brochure', and 'Why GetSmarter?'. The section 'About this Course' is highlighted.

## Communicating for Influence and Impact

Develop your leadership abilities with communication skills that foster collaboration and influence positive change in any context.

The screenshot shows the EdX course page for 'University of Cambridge: The Psychology of Emotions: An Introduction to Embodied Cognition'. The page features a search bar at the top, a promotional banner for AI and tech skills, and a breadcrumb trail. The course title is prominently displayed next to a blue-toned image of a human face with neural-like patterns. Below the title, it shows a 4.4-star rating and a brief description. Key course details include a 5-week duration (2-5 hours per week), self-paced progress, and a free optional upgrade. A red 'Enroll' button is visible, along with a note that 38,540 students have already enrolled. A navigation menu at the bottom includes links for 'About', 'What you'll learn', 'Syllabus', 'Instructors', 'FAQs', and 'Ways to enroll'.

## The Psychology of Emotions: An Introduction to Embodied Cognition

This fascinating introduction to the cognitive psychology of emotions explores how, when we see others' emotions, not only the mind, but also the body is engaged in the recognition. You will explore how to measure our ability to understand the feelings of others.
