University of Cambridge Free Courses

Cambridge is a top university in the world. I am interested in exploring some courses there in person one day. But until then, some remote courses—FREE—are here.

TABLE OF CONTENTS

1. Foundations of Finance
2. Digital Platforms in Performance
3. Communicating for Influence and Impact
4. The Neuropsychology of Decision Making
5. The Psychology of Emotions: An Introduction to Embodied Cognition

AI REVIEW PASSED.

The screenshot shows the EdX course page for 'University of Cambridge: Foundations of Finance'. At the top, there is a search bar and a promotional banner for a 30% discount on select programs until June 18. The course title is prominently displayed, along with a 4.5-star rating and 31 ratings. A description states that the course provides a rigorous but straightforward introduction to financial concepts, using real-world case studies and practitioner interviews. It also mentions that no prior knowledge is required. Key course details include a duration of 5 weeks (3-5 hours per week), a self-paced format, and a free price with an optional upgrade available. Two enrollment options are shown: 'Starts Jun 7' (ends Jul 15) and 'Starts Jul 22'. A navigation menu at the bottom includes 'About', 'What you'll learn', 'Syllabus', 'Instructors', and 'Ways to enroll'. The 'About this course' section is partially visible at the bottom of the screenshot.

Foundations of Finance

This course provides a rigorous but straightforward introduction to the key concepts of financial understanding. Using real-world case studies, practitioner interviews, and timely knowledge checks, you will integrate your new knowledge and problem-solving skills with practical application.

No prior knowledge is required or assumed.

The screenshot shows the course page on the edX platform. At the top, there is a navigation bar with the edX logo, a search bar, and links for 'edX For business', 'Sign in', and 'Register for free'. Below this is a promotional banner for AI and tech skills. The main content area features the course title 'University of Cambridge: Digital Platforms in Performance' and a description: 'Advance your digital story-telling prowess and learn how to create interactive gameplay scripts for video games, radio drama scripts for radio and/or podcasting, as well as content for your YouTube channel. Learn to transfer your skill as a dramatist into these innovative mediums.' It also states: 'This course will broaden your understanding of how to start a career successfully as a digital storyteller, as well as offer you insights in how to maximise and enjoy the processes of your personal creativity.' Course details include '4 weeks' (8-10 hours per week), 'Self-paced' (Progress at your own speed), and 'Free' (Optional upgrade available). A red 'Enroll' button is visible. Below the button, there is a checkbox for email notifications and a navigation menu with links for 'About', 'What you'll learn', 'Instructors', 'FAQs', and 'Ways to enroll'. The 'About this course' section at the bottom states: 'This course is part of the University of Cambridge's MicroMaster's program in Writing for Performance and Entertainment Industries.'

Digital Platforms in Performance

Advance your digital story-telling prowess and learn how to create interactive gameplay scripts for video games, radio drama scripts for radio and/or podcasting, as well as content for your YouTube channel. Learn to transfer your skill as a dramatist into these innovative mediums.

This course will broaden your understanding of how to start a career successfully as a digital storyteller, as well as offer you insights in how to maximise and enjoy the processes of your personal creativity.

The screenshot shows the edX website interface. At the top, there is a search bar with the text "What do you want to learn?" and a magnifying glass icon. To the right of the search bar are links for "edX For business", "Sign in", and a red button labeled "Register for free". Below the search bar is a blue banner with the text "Develop AI, data, and tech skills. Get up to 20% off select programs until June 18. Use code EDX3TEM24. Learn more." The main content area features the course title "CISL: Communicating for Influence and Impact" in large, bold black text. Below the title is a sub-header: "Develop your leadership abilities with communication skills that foster collaboration and influence positive change in any context." To the right of the text is a video thumbnail showing two people in an office setting, with a "Play video" button overlaid. Below the video is a red button labeled "Request more info". At the bottom of the main content area, there are three icons with text: a clock icon for "8 weeks" (8-10 hours per week), a calendar icon for "Starts Jul 10, 2024" (Enroll by Jul 16, 2024), and a person icon for "Instructor-paced" (Instructor-led on a course schedule). At the very bottom of the page, there is a navigation menu with links for "About", "Curriculum", "Certificate", "Facts", "Brochure", and "Why GetSmarter?". Below the navigation menu is a section header "About this Course".

Communicating for Influence and Impact

Develop your leadership abilities with communication skills that foster collaboration and influence positive change in any context.

The screenshot shows the edX course page for 'University of Cambridge: The Neuropsychology of Decision Making'. At the top, there is a search bar and navigation links for 'edX For business', 'Sign in', and 'Register for free'. A promotional banner for AI and tech skills is visible. The course title is prominently displayed, along with a 4.4-star rating and a brief description: 'An introductory course to the complex cognitive process that is decision-making, from a neuropsychological perspective. Covering basic neuroanatomy, neurodevelopment, important structures, chemicals and networks, individual differences in decision-making and decision-making deficits.' Below this, course details are listed: '6 weeks' (3-5 hours per week), 'Self-paced' (Progress at your own speed), and 'Free' (Optional upgrade available). A 'Choose your session' section shows the course starts on June 17 and ends on December 22, with a 'View course materials' button and an 'Enroll' button. A checkbox for email notifications is present. A navigation menu includes 'About', 'What you'll learn', 'Syllabus', 'Instructors', 'FAQs', and 'Ways to enroll'. The 'About this course' section repeats the introductory text and features the edX logo.

The Neuropsychology of Decision Making

An introductory course to the complex cognitive process that is decision-making, from a neuropsychological perspective. Covering basic neuroanatomy, neurodevelopment, important structures, chemicals and networks, individual differences in decision-making and decision-making deficits.

The screenshot shows the EdX course page for 'University of Cambridge: The Psychology of Emotions: An Introduction to Embodied Cognition'. The page features a search bar at the top, a promotional banner for AI and tech skills, and a breadcrumb trail: Home > Learn > Behavioral Psychology > University of Cambridge: The Psychology of Emotions: An Introduction to Embodied Cognition. The course title is prominently displayed, accompanied by a 4.4-star rating and 34 reviews. A descriptive paragraph explains that the course explores how we recognize others' emotions, involving both the mind and the body. Key course details include a duration of 5 weeks (2-5 hours per week), a self-paced format, and a free price with an optional upgrade. A red 'Enroll' button is visible, along with a note that the course starts on June 10 and ends on October 12. A navigation menu at the bottom includes links for 'About', 'What you'll learn', 'Syllabus', 'Instructors', 'FAQs', and 'Ways to enroll'. The 'About this course' section begins with the text: 'Psychology is not just the mind, this course introduces and explores the idea that our mind is rooted in our body and that perhaps it is'.

The Psychology of Emotions: An Introduction to Embodied Cognition

This fascinating introduction to the cognitive psychology of emotions explores how, when we see others' emotions, not only the mind, but also the body is engaged in the recognition. You will explore how to measure our ability to understand the feelings of others.
