Great Yellowstone AirBnBs

My group is exploring staying at big and awesome AirBnBs near the west entrance of Yellowstone Park. Here are my findings so far.

I am only looking at 6+ bed AirBnBs so far. I haven't found one that can accommodate all seven families. So we might have to divide it up into two different Airbnbs.

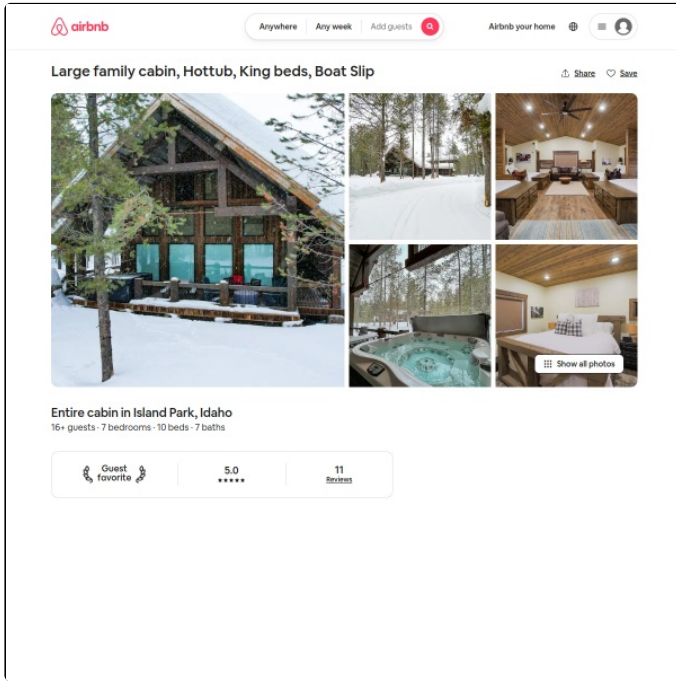

I am also looking exclusively near the western entrance of Yellowstone Park.

The AirBnB looks isolated which might be a concern for some folks but this is an extra layer of adventure for me :)

Kids can stay in the same room! My kids love this room. The idea of all their friends in one room with four beds is so cool :)
