Want to Increase Organic Leads?

As an entrepreneur, you know that generating leads is crucial for your business's success. However, you also understand the importance of building trust and credibility with your potential customers. That's where ShowNotes comes in—the perfect platform for entrepreneurs who want to grow their leads organically by sharing knowledge, research, and product or service information.

ShowNotes is a web-based platform that allows you to create and share notes on any topic related to your business without the need for expensive equipment or production. By sharing your expertise and well-researched information, you can educate your customers and leads and establish yourself as a trusted authority in your industry.

What sets ShowNotes apart is its commitment to safety and trust. Our AI-powered system automatically reviews your notes for safety, SEO optimization, classification, and other essential tasks, ensuring that your content is trustworthy and easily discoverable by your target audience. This high safety bar gives your potential customers the confidence to engage with your content and take the next step in their buyer's journey.

With ShowNotes, you can build an organic audience without resorting to hype or chasing trends. Our platform lets you control your data and subscriptions, allowing you to create and share content that aligns with your business goals and values.

Best of all, ShowNotes offers a FREE FOREVER tier, so you can start growing your leads without any upfront costs. As a creator, you always own your data and subscriptions, ensuring that your hard work and creativity remain yours.

ShowNotes has built in analytics. Not only we provide you with views, link tracking and likes and share analysis, we also tell you which notes are being read (time spent) and all these can help you focus on your core strength. Very soon we will have AI agents that will do holistic review of your content engagements and suggest tracks of engagement so that you can focus on what is working and spend less time on what is not. Smart AI assisted analytics is the way of the future because one thing AI engines are good at consuming is vast amount of data. We are using AI for the right reason and not focusing on "generative" aspects of AI that is going to cause serious content identity issues in the near future. Our team of enterprise engineers are experienced in building multinational systems and have extensive background in published work in the area of web and engineering so we feel we are using AI for the right reason when every other platform is just giving creators a button to override their creativity with AI generated content. We strongly believe YOU are the reason for your success and no amount of AI generated content will help you success faster.
