How To Share Your PDF File

You can add a PDF file to any note. Here is the shortcuts:

1. Click on the Add Note button
2. Enter your note details
3. Click on the paperclip icon to open the file uploaded
4. Drag your PDF file onto the popup area or click on the + icon inside the popup to select your PDF from disk
5. If your PDF meets our requirements, it will be uploaded and attached to your note.
6. Users can download the PDF using the link icon shown with the note

Each PDF file must be less than 5MB in size.

AI REVIEW PASSED.

How Viewers Access Your PDF File

Once you have attached the PDF to a note, it can be downloaded or viewed by the viewer by clicking on the download icon as shown below.

The screenshot shows a dark-themed interface for a note. At the top left is a blue square icon with a white globe. To its right is the title "My Amazing Go to Market Strategy Guide in PDF" in white. Below the title is a short paragraph of text. Underneath is a line of text: "Download the PDF version by clicking on the download link below." At the bottom left, there are four icons: a download icon (a white arrow pointing down into a document), a heart icon, a speech bubble icon, and a green shield icon. A blue callout box with a white border and a blue arrow pointing to the download icon contains the text: "Click on the Download Link to save the PDF file on your computer".

My Amazing Go to Market Strategy Guide in PDF

I have compiled hundreds of resources that you can use in your Go to Market (GTM) strategy. These resources are categorized and appropriate links are available for you to use.

Download the PDF version by clicking on the download link below.
