Netflix Shows / Movies I Want to Watch

I recently unsubscribed from Netflix since I wasn't watching it and neither was my entire family. My kids hardly watch TV and wife v1.0 spends most time in gardening. So it was a waste of \$\$ to keep netflix sub for so many years.

But now that I don't have it, I am finding new movies and shows that I want to watch. So I am going to build up a list here and then subscribe again.
