SEO 101

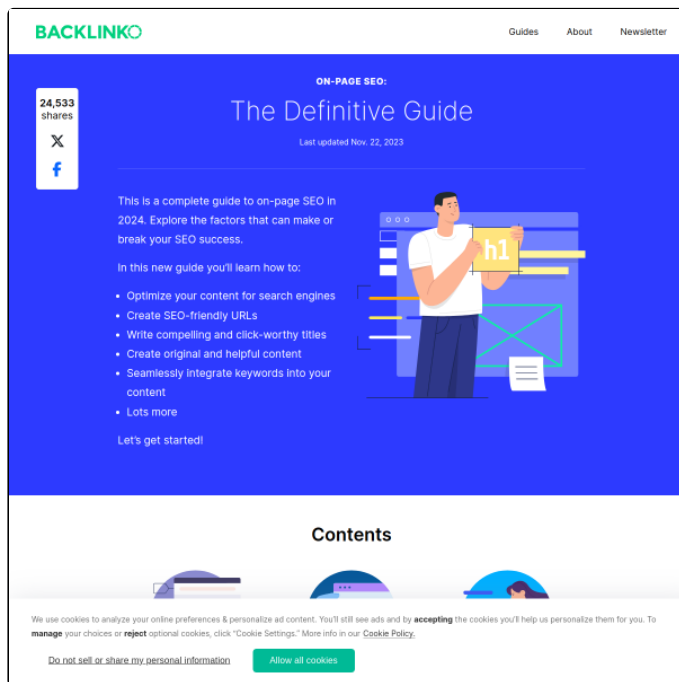

Search Engine Optimization (SEO) is still very important for Web-based SaaS companies. I am sharing my notes on this topic.

TABLE OF CONTENTS

1. The Definitive Guide
2. PageSpeed Insights
3. Google Search Console
4. Bing Webmaster Tools
5. Google Tags
6. Backlink Checker
7. Ubersuggest
8. SEMrush - very popular but fairly pricy SEO marketing toolkit
9. Ahrefs
10. SEO AI is a free SEO Checker with AI

AI AGENTS HAVEN'T YET REVIEWED THIS NOTE!

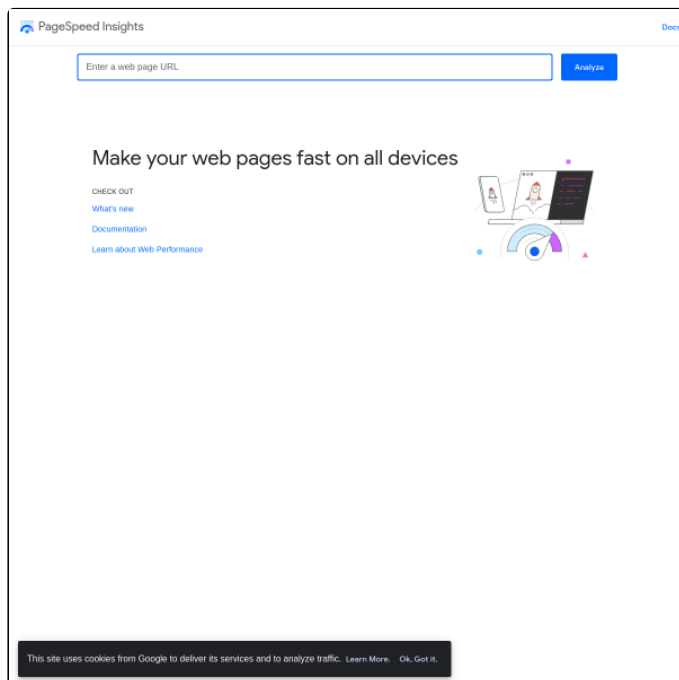

The Definitive Guide

This was recommended by Christopher Gimmer, co-founder of SNAPPA.

Google Tags

The Google tag (gtag.js) is a single tag you can add to your website to use a variety of Google products and services (e.g., Google Ads, Google Analytics, Campaign Manager, Display & Video 360, Search Ads 360). Instead of managing multiple tags for different Google product accounts, you can use the Google tag across your entire website and connect the tag to multiple destinations.

Ubersuggest

Ubersuggest is a free, comprehensive SEO tool created by Neil Patel. It offers features such as keyword research, competitor analysis, site audits, and backlink analysis to help you improve your SEO strategy. With Ubersuggest, you can gain valuable insights into your market, optimize your website for search engines, and track your progress. The tool also provides a free Chrome extension for quick access to SEO data while browsing. Overall, Ubersuggest is a powerful tool for enhancing their website's visibility and performance in search engine rankings.
