AI Detectors and Counter Measures

There seem to be great interest in AI detectors and counter measures so I am investigating this myself. My notes are public and on-going.

AI REVIEW PASSED.

## StealthGPT – Undetectable AI that Write Like a Human

StealthGPT works by generating text that is indistinguishable from human-written text. This allows writers to improve their work without getting caught. StealthGPT claims to be better than other undetectable AI writing tools. Users praise StealthGPT for its ease of use and effectiveness.
