Amazing Open Source Tools for Startups

I am researching open source solutions for startups.

AI REVIEW PASSED.

NocoBase - a scalability-first, no-code development platform.

<https://www.nocobase.com/NocoBase> is a scalability-first, open-source no-code development platform. Instead of investing years of time and millions of dollars in research and development, deploy NocoBase in a few minutes and you'll have a private, controllable, and extremely scalable no-code development platform!
